A Mansion in the Skies

It is said that Senator Fair is in consultation with two of the leading architects of New York who are preparing drawings for the erection of an elegant apartment-house, which is to occupy the whole of the square bounded by California, Sacramento, Powell and Mason streets, San Francisco The square is on the center of Nob Hill, and commands a fine view of the bay of San Francisco The building will be seven stories high, of pressed brick, with stone trimmings One of the beauties of the structure will be a yard in the center, with fountains playing, and galleries running around the interior of the court, enabling the occupants to enjoy the garden to the fullest extent The palatial buildings will cost about $900,000, and is to be named, after the Senator's State, "The Nevada"

New York City Democrats.

The Philadelphia Ledger s New York correspondent says There can be no question but that the death of John Kelly has done something to soften the asperity of the political feeling among the contending factions of the city Democracy, leading to the desire on the part of some of the more prominent men that they should shake hands over the grave of the Tammany chief, and resolve in future that there shall be but one and not many Democratic parties in New York. What the factions are more in need of in order to keep the party together for the Fall campaign is a leader, and that is now confessedly wanting Governor Hill, though figuring heretofore in Buffalo politics only, is anxious that Tammany should take him into its confidence and place itself in line with his policy

The latest news from Oregon is that Pennoyer (Democrat) is elected Governor by about 500 over Cornelius (Republican) Herman (Republican), is returned to Congress Webb and Strahan (Democrats) are elected respectively Treasurer and Supreme Judge The Republicans elect the State Printer and Superintendent of Public Instruction, and will probably carry the Legislature. The contest for Secretary of State is extremely close, with indications of the success of McBride, Republican

The most important act of the House of Representatives is the passage of the bill repealing the pre emption, timber culture and desert land law Like action will probably be taken in the Senate, and, with the approval of the President, the measure will go into immediate effect But existing entries upon the present land laws will not be disturbed by the change The pre-emption, timber culture and desert land acts have been the cloak for innumerable frauds, and the homestead law affords all needed security to actual settlers

A State reception will be given by President and Mrs Cleveland Tuesday evening next, to which the Cabinet, Diplomatic Corps, Judiciary, Congress, officers of the army and navy, heads of certain bureaus and the ladies and their families are to be invited The hours of the reception will be from 9 until 11 o'clock

The Maine Republicans have nominated J R Bodwell for Governor

As near as can be learned all the present county officers will be candidates for re election On the outside we hear that Swift will contest with Crisler for the Republican nomination for Sheriff, while Editor Harris will endeavor to down District Attorney Torreyson — Carson Tribune

HIDES OF SLAUGHTERED CATTLE

The Laws Relating Thereto to be Enforced

At the recent meeting of the Nevada Live Stock Association it was resolved in the interest of stock owners and the public generally, to enforce the law passed by the Legislature of 1885 relating to the hides of slaughtered animals. This Act, which was approved February 27, 1885, is entitled, "An Act concerning certain crimes and punishments," and reads as follows

SECTION 1 It shall be unlawful for any person to sell any slaughtered bovine animal to the keeper of any butcher shop or meat market in this State without having, and upon request exhibiting to such keeper, the hide, containing the brand, and other marks on the hide of such animal Any person so offending shall be guilty of a misdemeanor, and on conviction thereof shall be fined not less than ten dollars nor more than five hundred dollars, or imprisoned in the county jail not less than five days nor more than one hundred and fifty days, or by both such fine and imprisonment

SECTION 2 It shall be unlawful for the keeper of any slaughter-house, or persons engaged in slaughtering cattle for sale in this State, to purchase any cattle for slaughter, or any slaughtered bovine animal, without having exhibited to him the hide of such animal, and examining the brand and other marks upon such hide, and making and entering in a book to be kept for that purpose a description of such brand and marks together with the name of the person from whom the purchase was made, and the date of such purchase Such book shall be kept at the slaughter-house or business office of the person engaged in slaughtering cattle, and shall be open to the inspection of the hide inspector or the owner of any horned cattle in this State during business hours Any person violating the provisions of this section shall be guilty of a misdemeanor and on conviction thereof shall be fined not less than ten dollars nor more than five hundred dollars, or imprisonment in the county jail not less than five days nor more than one hundred and fifty days, or by both such fine and imprisonment.

SEC 3. It shall be unlawful for any person peddling the meat of any bovine animal, who is not the keeper of any shop or meat market, to sell such meat without having, and upon request exhibiting, the hide of such animal containing the brand and other marks thereon Any person violating the provisions of this section shall be guilty of a misdemeanor, and on conviction thereof shall be fined in any sum not less than ten dollars nor more than five hundred dollars, or imprisoned in the county jail not less than five days nor more than one hundred and fifty days, or by both such fine and imprisonment

SEC 4 It shall be the duty of every keeper of any slaughter-house and engaged in the business of slaughtering any bovine animals to keep at his slaughter-house or place of business a book or record, in which shall be recorded and preserved a description of the brand and other marks upon the hides of each slaughtered bovine animal together with the name of the person from whom the animal was purchased, when such name is known or can be ascertained and the date of such purchase Said book shall be open to the inspection of the hide inspector or the owner of any horned cattle during business hours Any person violating the provisions of this section shall be guilty of a misdemeanor and on conviction thereof shall be fined not less than ten dollars or more than five hundred dollars, or imprisoned in the county jail not less than five days nor more than one hundred and fifty days, or by both such fine and imprisonment

SEC 5 This Act shall take effect on the first day of May A D eighteen hundred and eighty five

POWNING'S REPLY —The Enterprise and the Dayton Times have been going after General Powning charging him with being influenced by considerations of official tenure in the editorial course of his paper, the RENO JOURNAL He replies as follows * * * * * * *

To a man up a tree it looks as if the Reno Statesman had the better of the wrangle The Enterprise ought to make some kind of a rejoinder —Carson Free Lance.

NEVADA STATE LIBRARY

The Free Lance says

There about 25,000 books in our State Library Additions are made monthly There is now an income to the library fund of about $100 per month or $1200 per year This amount is expended in new books. The law department of the library is the third in size of the law libraries of the United States This department is complete and is weekly receiving any new law publication published in the United States It has long been the aim of the library management to purchase for its shelves any and every new law book published The library also has a large collection each of histories, biographies, scientific works and standard novels There are also rare ancient works of great value Now this library apparently is an expensive luxury, of what use to the public is this State Library as an educator? Of course every citizen is welcome to visit the library and read its books while there, and to search records, but only a privileged few are permitted to take out books to read No lawyer, District Judge, teacher or public servant other than a State officer has in reality the use of the library Of the 50,000 people in this State whom the library is supposed to benefit, the State officers are privileged Now about 25 persons the books to read $100,000 worth of literature in the State Library Why so little use made of it? There may be good cause why the people do not have access to their books but if so we have failed to learn what it is in the interest of popular education, it would seem that a State Library should better subserve the whole people of the State

THE WRONG CONSTRUCTION

Silver State

The Walker Lake Bulletin, commenting upon the remarks of the Silver State relative to the nomination of H S Mason, of Carson, for Congress says

"Mr Mason has so positively announced that he will not be a candidate that it is useless to consider his claims, but he represents the class of men from which both parties should get their candidates He said that he could not bind himself by party ties, and in effect that the duty an officer owed the whole people was superior to the claims of mere party "

If the Bulletin will take the trouble to read Mr Mason's letter—and we beg leave to assure it that it will pay it to do so—it will discover that it misconstrued Mr Mason's language He has not positively announced that he will not be a candidate, but states that his nomination on the Republican ticket is out of the question, because he will not bow down to the bosses and visit the Palace Hotel and railroad offices with his hat in his hand to inquire if he may be a candidate. For these and other reasons, which are concisely stated in his letter, Mr Mason says he is scarcely an eligible and not at all probable, candidate for Congress. There is a vast difference between this language and that attributed to Mr Mason by the Bulletin, but perhaps the Bulletin thinks that Mr Mason's refusal to "bow to the bosses" is equivalent to a positive refusal to be a candidate, and in that case we are not disposed to question the correctness of its opinion

STATE TEACHERS' INSTITUTE

The Carson Free Lance says

The State Teachers Institute will be called at Reno, commencing July 27th Washoe county has appropriated $100 for defraying the expenses of the same, and the citizens have subscribed another $100 making $200 in all given by the people of Washoe county towards defraying the expenses of this proposed educational gathering Senator Powning contributes $10, T K Hymers, $10, R L Fulton, $5, Sam Hodgkinson, $5, and other public spirited citizens similar amounts Commissioner T K Hymers became so much interested that he offers to draw his check for the necessary $100 should the people fail to respond The liberal people of Reno sustain their enviable reputation as patrons of learning In striking contrast with this spirit the County Commissioners of several of the counties of the State have refused to set aside even the $100 authorized by statute to be set aside annually for County Institutes The institute is indispensible to progress in education. Properly conducted, its value can not be estimated in dollars and cents No county in this State having public schools can afford to be without the advantages of this Teachers Institute In securing the coming educational gathering at Reno, in July, Washoe county has shown a progressive educational spirit truly commendable Were this same spirit manifest in every other part of Nevada, our State school system would make a stride of a quarter of a century in school management and methods of teaching

Senator Stewart's office furniture and law library has arrived and is being put in position at his new office Very handsome and elaborate —Carson Tribune.

KNIGHTS OF PYTHIAS.

Arrangements for Supreme Lodge —A Gala Week for Toronto—Programme of Attractions.

The Toronto (Canada) News of May 19th says

The local committee of the Knights of Pythias are making the most complete preparations for the reception of the Supreme Lodge of the Order and the visiting Knights and tourists who will be present in this city during the sitting of the Supreme body in July The project of securing the biennial session of the Supreme Lodge in Toronto first came prominently before the public in the shape of a motion passed at the annual session of the Grand Lodge of Ontario, held at Hamilton on June 14, 1883, instructing Supreme Representatives, Dr J S King and Geo. H Mitchell, of Toronto, to invite the Supreme Lodge to Toronto in 1886 This action was endorsed by the Toronto Lodges When the Supreme Lodge met at New Orleans, in 1886, Dr King proposed Toronto as the next place of meeting The matter was referred to the Committee on Mileage and Per Diem, and their report showed Chicago to be the most central point nominated The other places which competed for the honor were Toronto, Boston San Francisco and Denver No less than four ballots were taken before a choice was made Dr King made a stubborn fight for his nomination He pointed out the beneficial effect that would accrue in Canada from the session being held in Toronto, that they had never, up to that session given an office to any one outside of the United States, although they claimed to be cosmopolitan and urged them to obliterate national lines, and having given an important office to a Canadian, to go a step farther and pave the way for extending the Order into Great Britain, by first getting a firm foothold in Canada Apart from the advisability of holding the session in Toronto and the impetus it would give to the Order here, he pictured the many points of attraction which the city and neighborhood possesses The Niagara river and falls, the beautiful lake, the magnificent country through which the tourists would pass were described, and the result was that the final vote between Toronto and Boston resulted in favor of Toronto by a majority of nine

The Supreme Lodge of the world is the highest representative body in the Order It is composed of two Representatives from each Grand Lodge in existence, together with all Past Supreme Chancellors and the founder of the Order, Justus H Rathbone Formerly, the Supreme Lodge met annually, but for some time past biennial sessions have been held At the present time there are some 48 Grand Lodges and great efforts are being made to have the Grand Lodge of Manitoba organized before the session of the Supreme Lodge The Representatives of the Grand Lodges are elected for four years, one retiring every second year The officers of the Supreme Lodge are the founder, Justus H Rathbone, Washington, D C, Immediate Past Supreme Chancellor, John P Linton, Johnstown Pa, Supreme Chancellor Hon John Van Valkenburg Fort Madison Ia, Supreme Vice Chancellor, Hon Howard Douglas, Cincinnati, O, Supreme Prelate, Dr John S King, Toronto, Supreme Keeper of Records and Seal, R E Cowan, St Louis Mo, Supreme Master of Exchequer, S J Willey, Wilmington Del, Secretary of Endowment Rank, Hiram Nelson, Washington, D C, Supreme Master at Arms, George B Shaw, Eau Claire, Wis, Supreme Inner Guard, C F Bragg, Bangor, Me Supreme Outer Guard John W Thompson, Washington, D C The officers are elected at each session and hold office until their successors are installed

In addition to the Grand Lodges in existence the following unorganized States and Territories which have no Grand Lodges are supervised by the Deputy Supreme Chancellor Indian Territory, Hawaiian Islands British Columbia, Mexico, Idaho Territory and Manitoba

The sessions of the Supreme Lodge usually last from 8 to 10 days The sittings are not open to any except those who have been Past Grand Chancellors in their several jurisdictions The Supreme Lodge will assemble in this city at 12 o clock noon, on Tuesday, July 13 On the first three days only short sessions will be held in order to permit the members to join in the festivities and celebration

For a year past the Supreme Lodge Reception Committee, composed of representatives from the city lodges have been devoting their energies to arrange a programme for the entertainment of the visiting brethren In this they have so far succeeded admirably, and if only the incompleted programme so far arranged is carried out, the visitors will carry away with them pleasant memories of happy days and a true Canadian welcome Among the prominent attractions are a church parade of uniformed Knights at St James' Cathedral, the service to be conducted by an eminent divine and Chaplain of the Order from Chicago; a street parade of thousands of splendidly drilled and uniformed Knights, with mounted brigade and divisional officers, a public reception at the Caledonian skating rink, Mutual street, when addresses of welcome will be delivered by Lieut Gov. Robinson, for the province, Mayor Howland for the city, and by the Supreme Chancellor and four orators of the Order representing the northern, eastern, southern and western jurisdictions A grand musical entertainment at the same place, and a two or three days tournament at the exhibition grounds, in which prizes ranging from $1,000 to $200 will be presented, a competition among the American bands, and a grand review of the Knights in brigades and divisions by electric light in the exhibition park, all possess special attractiveness An illuminated procession of boats on the Bay and the play of Damon and Pythias at the Grand will also form features. The Committee are expending $8,000 in attractions alone. Dr J. S King will also give a reception at his residence, corner of Sherbourne and Wilton avenue, to the officers and members of the Supreme Lodge and representative men of sister organizations in this city

The enterprising Knights compute, from notifications from lodges who have signified their intention of being present, that they will bring into the city a larger number of American visitors than any event in her history Already quarters have been engaged for upwards of 3,000 uniformed Knights, and from the communications they are daily receiving from various points reaching from San Francisco to the Atlantic, they feel confident that there will be about 6,000 uniformed Knights in line at the great parade Excursions are being arranged from all points whence the various bodies come, and it is expected that not less than 15,000 of our American cousins will be attracted to the city Entries for the prize competitions have been received from Ohio, Indiana, Michigan, Missouri, Kansas, Arkansas, Nebraska, Pennsylvania, New York, Virginia, and California

In view of the fact that a quarter of a million dollars will be brought into the city by the visitors, the local reception committee ask the citizens and merchants and public corporations to do whatever lies in their power to make the city attractive and the visitors feel at home This they can do by hanging out bunting, throwing open their factories, etc., for inspection, and in many other ways

The Supreme Chancellor, the Hon John Van Valkenberg, is a Canadian, having been born at St. George, Ont He and Dr J S King, Supreme Prelate, are the first Canadians elected to high office in the Supreme Lodge

The Order which started 17 years ago with 63 members at the time of the last meeting of the Supreme Lodge numbered 180,000, to which a net gain has since been added of 30,000

In order that visitors may be able to find accommodation with the least possible inconvenience it has been arranged to open a bureau of information Anyone wishing to accommodate visitors can communicate with the Secretary who will keep a record for the inspection of those who need such assistance The officers of the local committee are Dr J B Smith, President, Geo H. Mitchell, Secretary, Box 456 P O, Wm Townsend, Treas

THE STORAGE OF WATER —The Nevada Land and Cattle Company is demonstrating the practicability of storing water for irrigation purposes. It has built a rock-dam in a narrow defile of the hills surrounding Squaw Valley in Elko county, which fills a basin of 2,000 acres to an average depth of thirteen feet, containing about 8,500,000 000 gallons It has also constructed during this year about twenty eight miles of irrigating ditches, the main canal having a capacity of about 20,000,000 gallons in twenty four hours has a thousand acres of alfalfa growing vigorously, besides grain and vegetables, and is engaged in stock-raising on a large scale The capacity of this reservoir is sufficient to put twelve inches of water annually on about 26,000 acres of land That might not be sufficient artificial supply on new ground unless assisted by a considerable rainfall, but it has been discovered by the company that on land irrigated last season, water or moisture now stands within a few feet of the surface where it was never before found at less depth than eight or ten feet, establishing the fact which has already been observed in Southern California and the San Joaquin Valley, that the soil once thoroughly moistened does not require so much surface water to produce crops The company is converting arid sage brush plains into grain-fields by its enterprise, and showing the citizens of Nevada the way to a better prosperity than they have enjoyed in the past flush mining days —S F Bulletin

CONGRESSIONAL —The telegraphic announcement from Washington that Senator Fair and ex-Representative Cassidy are both going to stand squarely in for re election to those respective and responsible positions from this State is received with evident satisfaction by the Democracy, and the Republicans naturally look upon the game as made to that extent There is considerable discussion of the subject by our local politicians, and the ebullition of the political pot waxes considerable stronger in consequence.—Enterprise.

THE NEW INDUSTRIAL FEATURES OF THE HOME.—The new industrial building at the Orphans' Home will be ready for use August 1st. A teacher of the art of cookery has been employed; also a teacher of the mechanical arts, both to commence class about September 1st. All of the State wards of suitable age will receive instructions in the industrial arts. According to the Free Lance it is also proposed to give the youth of Carson an opportunity to learn the various arts of industry; the girls cooking, sewing and mechanical drawing; the boys mechanical drawing and the use of carpenters' and machinists' tools. The tuition for such instruction will probably be $8 per month or $80 per year. Should the doors of the industrial department thus be thrown open to the public they will doubtless be well patronized. There should be in Carson alone 40 boys and girls anxious to receive this kind of an education. The Free Lance editor further says: On our visit East a few months ago we learned in Cleveland, Chicago, Denver and other places visited the industrial schools after which the Home school will be modeled have applications for more pupils than they can accommodate. Many of these pupils, nearly all of them in fact, are from wealthy families. These industrial features introduced into our State institution will in time and in part be adopted in the public schools and are certain to work a reformation in educational methods throughout the State of Nevada.

THE DUKE OF AUCKLAND GOES TO NEVADA.—The cattle interest of our sister State secured a valuable acquisition when Mr. A. Banta, whom the Reno State JOURNAL describes as "one of our best and most prosperous farmers' returned from California with a lot of fine short-horn Durham cattle, which he purchased of Sylvester Scott, of Cloverdale. The herd consists of a bull, seven cows and four calves. The bull is four years, weighs 2,100 pounds, and was imported from Australia, being called the Duke of Auckland. We are sorry to have this fine fellow go out of the State. It will be remembered that he took the sweepstakes at the Sacramento fair last fall. We shall watch with interest to see if Mr. Scott can grow some of his offspring to equal their sire.—Pacific Rural Press.

We are informed by a gentleman who had the pleasure of visiting Mr. Banta's farm the other day that the cows, calves and bull purchased by Mr. B. are doing finely and the Duke is greatly improved in appearance since he commenced to feed on Nevada grass.

BISHOP WHITAKER'S SCHOOL.—Two weeks from yesterday will be commencement day at the School for Girls. There are eight members of the graduating class, two of whom are residents of Reno. The twenty-fifth rehearsal of the Department of Music will be given at the Theater in the evening.

Isn't it strange that we have never had any judge-bribers or jury-fixers in Nevada? Not even in such cases as the Raymond and Ely and the Hermes, Zinc, Barnes, Daggett et. al. against the Con. Virginia and California, the Holmes Mg. Co., against the Northern Bell Mg. Co., and other suits of that kind. Then it is matter for congratulation that our Legislatures have always been above the influence of the lobby, and that the members have never been bought or sold like sheep.—S. F. Corr., Carson Free Lance.

When elected Governor, and he surely will be, Hon. Thos. B. Rickey will erect a Gubernatorial mansion that will be a credit to the State as well as an ornament to Carson.—Tribune.
